Final Project Rubric -- Ethereal

Submission

This assignment is due at discussion section for the week of Dec.11th, 2017.

Grading

Category	Weight	Scoring	Requirements
Basic Preparation	2	0-1	Ready to go at the start of section
Cleverness	2	0-2	The hardest points on the rubric
Code Submission	4	0-2	Submitted correct content on time and to the correct location in the repository
Decomposition	4	0-2	Project is adequately decomposed to different classes and methods
Documentation	4	0-2	Comments for each class and each function are clear and are following style guides
Effort	2	0-2	Perform considerable amount of work
Naming	2	0-2	Variable names and method names are readable and are following the naming conventions of the language you chose
Overall Design	5	0-2.5	Have nice approaches and structures in overall
Participation	5	0-2.5	Interact with the group 2 times (ask a question, make a comment, help answer a question, etc.)
Presentation	4	0-2	Present the code clearly
Requirements – Search	5	0-2.5	• 2 points: Have the ability to search a track/artist by the user's input keywords and show the result for the user • 2.5 points: Add other search fields such as "music type" according to the user's preferences

Requirements – Artist Page	5	0-2.5	• 2 points: Show the information of the artist in the artist page including the name of the artist and tags related to the artist • 2.5 points: Have extra information related to the artist such as a list of similar artists to the current artist
Requirements - Love/Un-love from Search Result	5	0-2.5	• 2 points: Enable the user to choose to love/un-love a track/artist after picking the track/artist in the search result list. And successfully show the results of the user's changes under the title of "loved tracks" or "loved artists" in the user's profile page • 2.5 points: Neat and nice UI for the love/un-love operation and smoothly and quick change in the user's profile page (when the user has loved/ unloved a track/artist, the list of loved tracks/loved artists should be changed quickly and correspondingly)
Requirements - Place Holder and Navigation for Search (when there is no data the user to show)	5	0-2.5	• 2 point: Have proper placeholders in the user's profile page when there is no data of the user to show. Add a link (navigation) to the search page for the user to collect data by searching track/artist that he/her like. • 2.5 points: Have placeholders when there is no information from the Last.fm (e.g. when there is no image for the track, there will be an image of the logo of "ethereal" as a placeholder)
Testing	4	0-2	• 1.5 points: Some tests and manual test plan are implemented • 2 points: Great test case implementation
Total	**58**
